DETAILED ACTION

Claims 1, 5, 19, 30, 41 and 42 are pending in the application.

This action is in response to applicants' amendment dated March 21, 2007.

Claim 41 has been amended.

Response to Arguments

Applicant's arguments filed March 21, 2007 have been fully considered with the following effect:

- 1. The applicant's amendments and arguments are sufficient to overcome the 35 USC § 112, second paragraph rejection paragraph labeled 2c) maintained in the last office action, which is hereby **withdrawn**.
- 2. The applicant's amendments and arguments are sufficient to overcome the 35 USC § 112, first paragraph rejection labeled paragraph 4) in the last office action, which is hereby **withdrawn**.
- 3. The applicant's amendments and arguments are sufficient to overcome the 35 USC § 112, second paragraph rejection paragraph labeled 5) in the last office action, which is hereby withdrawn.

In view of the amendment dated March 21, 2007, the following new grounds of rejection apply:

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent

Application/Control Number: 10/786,822 Page 3

Art Unit: 1624

and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 1, 5, 19 and 30 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim 10 of U.S. Patent No. 7,034,052. Although the conflicting claims are not identical, they are not patentably distinct from each other because the composition of U.S. '052 embraces the compositions of the compounds of the instant invention where R⁸ is cyclopropylcarbonylamino.

Allowable Subject Matter

5. Claims 41 and 42 are allowed. None of the prior art of record or a search in the pertinent art area teaches the pharmaceutical composition of the species as claimed herein.

Application/Control Number: 10/786,822
